Ardmore, -

I.T

PERHAPS we had better postpone our commiseration for young Charles Fair, upon the loss of \$15,000,000. For the kind of a young man the youthful Mr. Fair is, the loss of \$15,-000,000 is the most fortunate thing that could happen to him. We congratulate him.

THE melancholy fact remains that the snake season is nearly over. However, there may be no harm in remarking that a lady was standing in Ninde's carpet store at Fredericksburg, Va., with her hand on a roll of matting, when a moccasin snake came out of the middle of the roll The lady's remarks were overheard for some distance.

A GUARD at the California penitentiary pulled his gun towards him by the muzzle and the gun, having no more sense than the guard, filled him full of slugs and miscellany. A man who cannot on sight recognize the dangerous end of a weapon ought not to be permitted to draw a salary for imperiling himself.

ILLIAM DEAN HOWELLS declares, in flat contradiction of Dr. Carl Peters, that "Chicago hackmen are the most reasonable creatures and never attempt to extort exorbitant Thus is the backman vindicated. Who wouldn't take the word of an enlightened American author against that of a subject of an effete European despotism?

THE federal government can see to it that all sorts of precautions are taken to insure the safety of passengers on vessels flying the American flag and can and does regulate every detail of the running of such vessels. Why can not and why does not the federal government exercise equally beneficent care over the passengers by the railways within its jurisdiction?

AND so Dhuleep Singh is dead. Well, well, it's a bad year for oriental potentates. With the sultan of Johore fighting a breach of promise suit in England, the maharajah of Kapurthala, a hopeless victim of the gin fizz habit and the gackwar of Baroda plunging around London trying to borrow enough money to get home with, the dazzle and Piusion of Indian splendor are hopelessly gone.

= As experience has shown that a square foot of iron plate one-eighth of an inch thick weighs almost exactly five pounds, the area of any sheet iron (or plate iron) in square feet multiplied by the thickness in one-eighths and multiplied by five will give the weight of the piece. Anybody who wants to know the weight of a piece of sheet iron without weighing it will find this a very useful rule.

THE world's greatest pest hole is at last to be cleansed. The sultan of Turkey has resolved to put Mecca into something like a healthy conf dition. The decision is the effect oan intimation from the British government that unless the whole city is cleaned it will take means to prevent the annual pilgrimages from India. The sultan has decided not only to cleanse the town, but to erect at his personal expense a great lodging house capable of containing 6,000 persons.

A GREAT many people not especially interested in yachting have had their patriotic American feelings gratified by the success of the Yankee Vigilant as against the British Valkyrie. It is, indeed, something more than a sportsman victory. Two styles of boat-the cutter and the Yankee centre-board, were contending for supremacy. For years' British seamen have declared their style of boats was the best; but the shrewder among them are at last obliged to acknowledge their mistake. Our people know how to make a boat that will win. What we need next is to design steamships and sailing vessels that will win the palm for carrying the commerce of the world, as our pleasure yachts have won the palm in sportsmanlike qualities.

THE proposition for a union of the Central American states is again being discussed. This fact may be accepted as pretty good evidence that those little tropical hornets are again recharging their stingers with venom. It has generally been the case that whenever they begin talking about getting together they are on the point of falling wider apart. This was the case just before the Barrundia episode. Still, if what appears as the impossible should some day turn out to be probable and a union finally accomplished, the five states of Guatemala, Salvador, Honluras, Nicaragua and Costa Rica would scarcely make a country as large as Ohio in population and with an area less than that of California by some 20,000 square miles. Their entire population is but 3,056,677.

A MUSI er's circular is authority for assertion that she gross profi deet music at wholee cents a copy. At sale is abou 000-copy success that rate on nakes a marg enough to evon ip a good man red failures.

THE ex-queen d waii must be a zenius. She is ted by rumor leating the with the intention throne, and as slights no throne to abdicate the dimeulty she faces would seem insuperable to one of ordinary mental equipments.

M'KINLEY'S PLURALITY BE-TWEEN 70,000 AND 80,0000.

LATEST RETURNS.

NEW YORK MACHINE ROUTED.

The Republicans Apparently Made a Clean Sweep in Chicago... The Results of the Election's Great Surprise to Washington Politicians - Republicans Carry Kansas-Other Election Returns.

COLUMBUS, Ohio, Nov. 9. - At Democratic state headquarters to-day party managers conceded that the result of yesterday's election was such as to give them no cause for looking after returns. Chairman Dick of the Republican state beadquarters claimed from later unofficial returns that McKinley's plurality would be between 70 .-000 and 80 000 the largest in the history of the state except in 1863 when Brough had over 100,000, his opponent being Vallandingham, who was then an exile in Canada.

Chillicothe, the home of Neal, Democratic candidate for governor. went Republican for the first time.

The telegraph offices are busy handling congratulatory telegrams to Mc-Kinley from all parts of the country, wishing him equal success in 1896. Republican papers are out to day with McKinley's name hoisted as their candidate for president. The legislature will be Republican

by about two-thirds in both houses. Governor McKinley said just before he retired to rest at daylight this morning that he had really not been agreeably surprised at the majority given him. He secured a clear majority over the entire opposition for the first time since 1881. His plurality in

1891 was 2,511. McKinley has carried this congressional district, represented by Mr. Outhwaite, by 873. Ex-Governor Outhwaite, by 873. Ex-Governor Campbell's plurality in it two years ago was 3,500. At this rate the people here are preparing themselves for all sorts of surprises relating to Mc-

Kinley's gains. In reply to 27 inquiry as to the causes for the result in Ohio, Governor McKinley to-day stated that Lawrence T. Neal, the Democratic candidate for governor, was recognized as much a free trader as he (McKinley) was an advocate of protection. At the Chica-go national convention last year that nominated Cleveland for president, Neal was the author of the an-ti-tariff plank and had it in-serted in the platform instead of the plank reported by Cleveland's friends on the committee on resolutions. In his opening speech in this campaign at Newark, Ohio, he not only said that his campaign would be fought on the lines of the Chicago platform which had been incorporated into the state platform on which he stood, but also so clearly defined his position as a free tra ler that the two candidates were recognized throughout the canvass as embodying in their views this issue as had never been before so dis-

tinctly presented to the people.
"The next day after Neal's speech at Newark." said Governor McKinley, "I accepted his interpretation of the issue as represented by us respectively and we fought it out on that line in over 100 public meetings of each candidate that followed and were invariably addressed in accordance with the challenge at Newark and its

prompt acceptance. Governor McKinley said the returns would now speak more forcibly that. he was able to do and he knew of nothing that he could add except to say that heretofore the campaigns had been conducted with complications of issues, but that this time the fight was centered on protection with the leader of free trade clearly defined in his position and the tarriff issue fully presented at every meeting of all parties in the canvass.

At 2 p. m. those tabulating returns at Republican state headquarters said McKinley's plurality would reach 100,000. Chairman Dick. however, said he would not claim over 85,000 till he had responses from his local committeemen.

THE MACHINE KNOCKED OUT. New York and Brooklyn Bossism Hit

Hard-Latest Returns. NEW YORK, Nov. 8 -Machine methods in this state and political bossism in Brooklyn have been repudiated by the people in the most decisive manner. The campaign was not one of political parties in the usual acceptation of the term, but was a fight of the better classes against ring and dictators, and the people won.

In the state Bartiett, Republican, defeated Maynard, ring candidate for the court of appeals, by probably over 65,000 plurality, and the rest of the Republican state ticket wins by 20,-000. The state senate, now Democratic, will have a Republican majority of six, the assembly of seven. In the constitutional convention there will be 105 Republicans to seventy

Democrats. In the city of New York. Tammany carried through the entire state and county ticket. Maynard had a plurality of only 30,000, the rest of the ticket making an average of 60,000. The present assembly delegation is surely Democratic. Three Republicans were elected yesterday-Sheffield, Eveventh; Lawson, Twenty-third;

Robertson, Thenty-seventh. Brooklyn overwhelmed the ring with a piurality of over 27,000 for Schieren for mayor and Kings county completed the rout by electing the en-Republican ticket by Gaynor defeated Pearsall for justice of the supreme court, his plurality in Kings county being 22,000 The board of aldermen is Republican, 11 to 8. Five supervisors were gained, one of them supervisor at large, but the board is still Democratic. Republicans and two Democratic senators were elected. Eight of eighteen assemblymen are Republicans. Mc-Kean's district, where the rioting occurred yesterday, gave 3,500 Demo-

cratic and 105 Republican votes. The registration was 6,200. Erie county repudlated Machine Leader Sheehan by a plurality of

THE RESULT IN KANSAS. Republicans Elect Ninety Out of the 105

County Officers. TOPEKA, Kan., Nov. 9. - Returns received to-day from various points in the state seem to assure a sweeping victory of the Republicans over the Populists. The Democratic and Prohibition votes were very light and cut but small figure. The returns are still incomplete but from full and estimated returns it is probable that the Republicans have elected their officers in at least ninety counties of the 105 in the state and have probably elected ten district judges, the Populists two and the Democrats one.

The Populists still claim that they have carried the state and that a full count of the votes will bear out their ante-election predictions. The tele-grams received by Chairman Breiden-thal indicate Populists gains over the vote of 1891, but his information is so meager and from such remotely scat-tered localities that it is not satisfactory to the unpredjudiced mind. He claims that the early dispatches were based upon the returns from the precincts in the cities or near the railroad stations and that no definite information had been received from rural communities where the Populist

Congressman Jerry Simpson expresses the greatest confidence that the Populists have carried the state. He believes they have made gains, in proportion to the vote east, of from en to fifteen per cent over the vote of If he be correct in his estimate the Populist plurality is from 10,000

CHICAGO.

The Republicans Have Apparently Made a Clean : weep.

CHICAGO, Nov. 9 .- The revision today of election returns show that the Republicans elected their entire indicial ticket with the possible exception of Kraft, with Judge Gary in the lead. Kraft was identified to some extent with the Socialists ... The Republicans showed general gains throughout the city and county over the presidential vote of last year and in addition Gary, who presided at the Haymarket Anargnist trial, and who was opposed by Governor Altgeld's influence, received many Democratic votes, putting him considerably ahead of his ticket. In the fight for county commissioners, he result is somewhat in doubt and it may require the official count to deside which party is in the lead. It is apparent, however, that the board will be mixed as men on both tickets seem to have been elected.

The election of Judge Gary has been a very severe blow to Governor Altgeld, who dictated the make up of the Democratic ticket and threw his entire influence against Gary. The defeat, it is thought, has lessened his chances for re-election and discouraged the Democrats upon the eve of the election of a successor to the late Mayor Harrison.

Governor Boles' Home Ward Carried by Jackson.

DES MOINES, Iowa, Nov. 9. - Frank D. Jackson, Republican condidate for governor, is e eeted by a plurality of about 8,000 more than President Harrison received in 1892.

Only about one-third of the voting precincts had been heard from to-day but the returns from scattered precinets all over the state show such a steady average gain for Jackson that there is no doubt of the result. The balance of the Republican ticket is elected by a large plurality. Six hundred precincts give Jackson, Republican, 76,299; Boies, Demograt, 61,493, a Republican gain of 14,893.

The legislature will be Republican. Out of twenty-four senators to be elected the Republicans elected seventeen. Out of 100 members of the house the Republicans will have about The Populist vote in the state will hardly exceed 25,000 and the Prohibition vote not more than 14,000.

Governor Boies'home ward at Waterloo gave Jackson 216, Boies 135, a Republican gain of 71.

IN DOUBT IN NEBRASKA.

Only Meager Returns From the State-

Omaha Safely Republican. OMAHA, Neb., Nov. 9.-The resuit in Nebraska is still in doubt, as returns are very meager. Douglass county gives Harrison for supreme judge about 5,000 plurality over Holcomb, Populist The Republicans claim at least 6.000 plurality in the county and the falling off here will propably defeat Harrison. Chairman Slaughter of the Republican state central e mmittee still claims Harrison's election by a very small plural In Omaha and Douglass county the Republicans have elected nearly every one of their candidates.

AS VIEWED IN WASHINGTON. Varying Comments of Demserat's Lead-

ers on the Result. WASHINGTON, Nov. 9 .- The result of the election has been received with surprise by all political parties here. The chief surprise of the Democrats arises, not from the fact that they were defeated, but that the defeat was so general in all doubtful states and the Republican majority so overwhelming. A grain of comfort is accorded to them in the defeat of the Populists in Virginia and the election of O'Ferrall to the governorship, but the blows have been so severe in the states of New York, Massachusetts, New Jersey and Ohio that even the success in Virginia is hardly paraded as a triumph All the prominent Democratic lead-ers unite in ascribing the general defeat throughout the country to two causes—the dissatisfaction of the agriquestion and the widespread apathy cultural elements over the financial disappointed office seekers who have failed to realize the fruits of the last Democratic victory. In the state of Ohio alone was the tariff question a prominent theme of discussion, Mc-Kinley and Neal so emphatically rep-resenting the declarations of their parties in this respect, but here, too, the

Democrats were routed by the same Republican majority.

In Iowa the defeat of Boies is im-portant, not that it means a Republi-can governor in that state and a Re-

publican! United States senator next winter, but that it practically removes Boiss from the list of Western candi-

dates for the presidency in '96.
The Populists still contend that later returns will show that their party has made a far better showing invarious states than is conceded to them in the earlier dispatches. In Virginia they succeeded in alarming the Democrats during the past two weeks but the leaders of the latter party rabled in time to make unprecedented efforts to get out their full vote and it looks as though the Populists would have stood a much better chance for victory by making a still fight. The Populist senators and reprosentatives who are in the city are anxiously waiting the latest news from Nebraska and Kansas and expect cheering reports from the official re-

The free coinage Democrats who have so bitterly reproached President Cleveland for forcing the repeal bill through congress and who have for weeks been predicting a crushing defeat in all the great state elections this fall, now point to the Democratic de-feat as the result of the party's de-parture from its faith in the recent extraordinary session. Chairman Bland will introduce his free coinage bill at the first bill day of the session and the free coinage men are expected to be a unit in demanding its prompt consideration.

The president early in the evening went to his country home instead of remaining at the executive mansion as usual on election nights and the returns he roceived were only those of sufficient importance to be telephoned to Woodley by Private Secretary Thurber as the latter received them from the telegraph wire at the White house. Several members of the cabinet drove out to the president's house early in the morning, but none of these have thus far given any expression of the cause that lead up to the general effect.

COLORADO.

Three Thousand More Votes Than Last Year Cast-Woman Suffrage Wins.

DENVER, Col., Nov. 9. - Returns from the county elections show Republican gains in almost every county. Three thousand more votes were polled in the state than at last year's presidential election. This is a remarkable showing considering the fact that the recent general depression was supposed to have driven hundreds of men from Colorado.

In Arapahoe county the entire Republican ticket except justice of the peace was elected by a thousand plurality. In other counties the result is almost similar.

Equal suffrage has carried by from 100 to 500 majority.

Virginia Democratic by 25,000.

RICHMOND, Va., Nov. 7 .- Revised figures of the election returns as made by dispatches from two-thirds of the state show that the Democrats have carried Virginia by a majority of not less than 25,000 and that O'Ferrall runs behind his tickes several thousand votes.

Governor Flower Very Blue. ALBANY, N. Y., Nov. 9. - This afternoon Governor Flower, upon being interviewed, said: "The senate is Republican by four majority and the state is lost. The Republicans have carried the assembly. ' don't care to talk of the matter.'

Democratic Gains in Kentucky. Louisville, Ky., Nov. 9 .- In Kentucky the Democrats more than held their own in the state legislature. The Democratic nominees were elected in most instances by increased majorities and the Po ulists appear to have dropped out altogether.

Reform in New Jersey. NEWARE, N. J., Nov. 9. - Latest returns only serve to increase the majorities of the anti-race track men and emphasize the defeat of the ring which has so long dominated the

JEFFERSON CITY, Mo., Nov. Governor Stone this morning issued his Thanksgiving proclamation as fol-

lows: The president of the United States, according to custom, has fixed the fourth Thursday of the present month as a day of thanks living, likewise in pursuance of an honored custom long observed in this common wealth, I supplem in the act of the president by appointing the same day as one of thanksriving in this state and request that the people of Missouri will observe the day by expressing their gratitude to Almishty God for His kindness in the past and invoking His divine blessing in the future. divine blessing in the future.
WILLIAM J STONE

Wrecked at a witch.

MOBERLY, Mo., Nov. .- The Chicago cannon ball train on the Wabash road, which left Kansas City yesterday afternoon at about 6 o'clock, ran into an open switch just as it was entering the vards here. The engine turned on its left side, catching Fireman William Malone beneath it. He was fatally scalded and died at the Wabash hospital here at 3 o'clock this morning.

Incendiary Flames in Wichita. WICHITA, Kan., Nov. 9.-Fire of incendiary origin, which threatened at one time to spread over a large area, broke out on the West side about 3 o'clock this morning, and before it was subdued destroyed two handsome residences and four barns and partially burned two more houses. The loss is fully \$15,000, about half insured.

Actor Curtis Wanted in 'Frisco. SAN FRANCISCO, Nov. 9 -The preliminary examination of Frank Mc-Manus and W. S. Dunn on the charge of bribing jurors in the Curtis murder trial has been continued for one week A vigorous effort will be made to have Actor Curtis return from the East to testify.

California's Collector Displaced. WASHINGTON, Nov. 9. - The president has dismissed John J. Quinn, collector of internal revenue for the First district of California. Ex-Represen-tative Wellborn has been appointed in his place.

DYNAMITE BOMBS THROWN IN A THEATER.

EIGHTEEN PEOPLE WERE KILLED.

A spanish Anarchist Huris Two of the Explosives From a Gallery During the Performance of an Opera at Barcelona, Wrecking the Building and Causing a Terrible Panto.

BARCELONA, Spain, Nov. 9 .- While fully 4,000 people of the very highest society of this city were last night enjoying a performance of the operaos "William Tell" in the Liceo theater, a magnificent opera house, sometimes classed as the largest theater in Europe, two dynamite bombs were suddenly hurled from the topmost gallery into the midst of the stalls on the floor of the house.

One bomb exploded with a terrible report which shook the theater to its foundations and killed six men and nine women and wounded scores of others. Three other people were killed in the panic which followed. The other bomb fell into the lap of a lady from whence it rolled harmlessly to the floor.

For a moment the Liceo was filled with smoke and dust. Falling glass and plaster which caused a rattling din which added to the horrors of the situation and cries of dismay and pain increased the feeling of terror.

The terrified crowd, fearing that at any moment another bomb might be thrown into their midst, completely lost all sense of control, and there was a fierce rush for the doors, men and women fighting with each other as they crushed weaker ones beneath their feet in the efforts to escape, leaving the wounded and dying behind them, tended only by a few of the braver. In this mad rush many old people and children were severely inured through being trampied under foot, while others were severely bruised and grushed by the outpour-

The stalls presented a terrible appearance. The part where the bomb exploded was a mass of splintered wreckage amid which lay numbers of dead bodies, some of them so terribly mangled as to be beyond recognition.

Throughout the aight the theater was surrounded by a dense crowd of people who packed the the Rambla de Capuchines to the utmost and who were with difficulty kept back by a strong body of 'police. Many were the expressions of bitter indignation from all sides against the Anarchists, this dynamite bomb outrage fol-lowing so closely upon the attempt made by Pallas to take the life of Captain General Mar-tinez Campos. There is, however, a universal feeling of consternation at the helplessness of the government in this emergency. All the houses inhabited by suspects have been searched and several arrests have been made. Among the first were an Italian named Saldini and a Frenchman named Aragon. It is presumed that the actual bomb thrower escaped and that the police are simply rounding up the Anarchistic haunts with the hope of finding some clue to the actual percetrator of the crime.

ESCAPED FROM SIBERIA.

Ten Political Exiles Rescued by an American Whaler Just in Time. SAN FRANCISCO, Nov. 9 .- The can tain of the whaling bark Charles W. Morgan, which arrived in port last night from Fox island, reports that September 3 in the Okhotsk sea seventy miles southwest of Cape Sirotoko, he picked up an open boat containing ten Siberian refugees who had put to sea to escane Siberian guards. The men had been at sea ten days and were three days without food or water and were in a pitiable condi-September 25 the Morgan spoke the whaler Cape Horn Pigeon and transferred five of the Russians to the
